Dear Parents/Carers

Coronavirus symptoms

Please see advice below:

- Any child showing one or more of the symptoms of COVID-19 (***new continuous cough, high temperature or loss/change in sense of taste/smell***) should remain at home. If your child displays these symptoms in Nursery, we will contact you and ask that you collect your child straight away.
- We would advise that your child then has a **PCR** test, and if positive, your child must remain at home and complete the isolation period. You can book a test at: <https://www.warwickshire.gov.uk/covidtesting>
- We ask that you show the result of your child's test either to Reception, the Office, Nursery classroom staff or email a screen shot to: parents1041@welearn365.com
- If you choose not to get your child PCR tested, your child **must** remain at home and **isolate for 10 days** from the onset of symptoms. After the isolation period, the child can return to Nursery if they are well enough.
- We would ask you to be alert for any of the less common symptoms of COVID-19 – **sore throat, headache, fatigue, muscle aches**, and we would advise parents/carers to get your child **PCR** tested, particularly if we have informed you we have COVID-19 cases in Nursery. Please see the flow chart below.

Please contact me if you have any queries

Kind regards

Sharon Kindred
